

Executive committee:

Oliver Cornely, Germany
Neil Gow, United Kingdom
Martin Hoenigl, Austria
Adilia Warris, United Kingdom

International scientific committee:

Jose Aguado, Spain
Arunaloke Chakrabarti, India
Jean-Pierre Gangneux, France
June Kwon-Chung, USA
Katrien Lagrou, Belgium
Cornelia Lass-Flörl, Austria
Malgorzata Mikulska, Italy
Rita Oladele, Nigeria
Alessandro Pasqualotto, Brazil
John Perfect, USA
Esther Segal, Israel

Local scientific committee:

Samir Agrawal, London
Liz Ballou, Birmingham
Tihana Bicanic, London
David Denning, Manchester
Matthew Fisher, London
Tom Harrison, London
Elizabeth Johnson, London
Carol Munro, Aberdeen
Riina Rautemaa-Richardson, Manchester
Tom Rogers, Dublin
Silke Schelenz, London
Lewis White, Cardiff

INVITATION

Dear Friends and Colleagues,

It is a great honour and pleasure for us to invite you cordially to participate in the 10th Congress on Trends in Medical Mycology (TIMM-10), which will be held in October 8-11th, 2021 at Aberdeen Exhibition and Conference Centre, Aberdeen, Scotland, United Kingdom. TIMM-10 is organized by the European Confederation of Medical Mycology (ECMM). The TIMM 2021 will mark the 10th anniversary of the TIMM series of meetings and we are looking forward to work together with our colleagues in the British Society of Medical Mycology, represented in the local organizing committee and the members of the scientific organizing committee, to present to you an attractive scientific and social program celebrating this 10th anniversary.

Over the last 2 decades, TIMM has established itself as an important and valuable meeting in the field of medical mycology, attracting around 1000 colleagues. TIMM has become a forum in which scientists and clinicians from all over the world present the latest advances and research findings in medical mycology combined with the provision of targeted educational workshops. TIMM-10 will cover new fascinating insights into the biology of fungal pathogens, intriguing host-fungus interactions, updated diagnostic and therapeutic management approaches, changing dynamics in clinical epidemiology, as well as the emergence of antifungal resistances and newly discovered fungal pathogens.

The meeting is designed for medical mycologists, medical microbiologists, (paediatric) infectious diseases specialists, (paediatric) haematologists, transplant physicians, immunologists, scientists in medical mycology, and all those with an interest in medical mycology.

Don't miss the opportunity to commemorate the 10th anniversary of Trends in Medical Mycology and also experience a warm and welcoming Scottish culture. Whether it's visiting a historic castle, toasting to locally crafted world-renowned whisky, or attending a dance in local costume, Scotland's cultural delights will make the TIMM-10 anniversary celebrations special and memorable.

Therefore, we warmly invite you to TIMM-10, to visit Aberdeen, and to enjoy with us excellent world-leading science in a beautiful and enchanting part of the north of Scotland.

We look forward welcoming you to TIMM in Aberdeen!

TIMM-10, executive committee
Adilia Warris, Martin Hoenigl, Neil Gow, Oliver A. Cornely

Trends in Medical Mycology is the bi-annual meeting of the European Confederation of Medical Mycology (ECMM).

www.ecmm.info

Main topics:

Antifungals
Emerging Fungal Pathogens
Candida
Aspergillus
Fungal Infections in the Immunocompromised Host
Dermatomyecology
Taxonomy, Epidemiology, Ecology
Classic and New Diagnostic Methods
Host Fungus Relationship
Virulence Factors

GENERAL INFORMATION

Location

TIMM-10 will be held in The Event Complex Aberdeen (TECA), Scotland, United Kingdom. Aberdeen International Airport, just 10 kilometers away from the city centre, has a growing network of flights to and from many cities across the UK and northern Europe. TECA and Aberdeen are very accessible with great transport links to this historic and successful city, and to some of Scotland's finest scenery and heritage!

Programme

The final programme will be available in the spring of 2021.

Website

All actual information will be available on: www.timm2021.org

Timing

The TIMM-10 will start on Friday 8 October 2021 with registration, symposia, keynote lectures, sponsored symposia, opening ceremony and welcome reception. TIMM-10 will end on Monday 11 October 2021 at noon.

Abstract deadline

The deadline for abstract submission is 1 June 2021.

Congress language

The congress language will be English.

Exhibition & sponsored symposia

A targeted group of biotechnical and pharmaceutical companies will be invited to organise a sponsored integrated symposium and or exhibit their products and services.

Important dates 2021

April 30	Deadline early-bird registration fee
June 1	Abstract deadline
July	Abstracts letters of acceptance will be mailed
August 1	Deadline late breaking abstracts*
September 13	Deadline regular registration fee

* for information on late breaking abstract requirements see www.timm2021.org
